Subject: AFMP 24x7 Whistleblowing Hotline

Dear Valued Suppliers

As part of the continuous commitment of the Emirates Nuclear Energy Corporation (ENEC) and its subsidiaries, Nawah Energy Company and Barakah One Company to adhere to the highest standards of business ethics and professional conduct, a formal Anti-Fraud and Misconduct Program (AFMP) was implemented and all suppliers were informed of the AFMP through ENA-GEN-14-0028L dated 4 March 2014; available on ENEC Supplier Registration website pages titled "ENEC's Anti-Fraud and Misconduct Program (AFMP)"

The AFMP Whistleblowing Hotline reporting mechanism is operational around the clock and was set up to enable stakeholders, suppliers, contractors and sub-contractors to report instances of fraud and misconduct. This includes bribery, kickbacks, corruption or any instance of unethical or improper conduct committed by any person or entity in relation to or affecting any activity associated with the Barakah Nuclear Energy Plant (Barakah NPP) Project in the UAE.

The AFMP Whistleblowing Hotline service is currently available in English, Arabic, Korean and Hindi. Concerns can be reported by dialing the following numbers:

- In the UAE: 800-032-0939
- In South Korea: 00308 132 529
- In the USA: 888-579-1647.
- For other countries: +18885791647 (Call charges may apply).

The whistleblower can disclose their identity or choose to remain anonymous, knowing in total confidence that the whistleblower's call will not be traced or recorded. Information provided by the whistleblower will be provided to the ENEC Audit & Investigation team for fact-finding review, without compromising the identity of the whistleblower.

Additionally, a complaint can be made by sending an email to ireport@enec.gov.ae or ireport@nawah.ae or through the ENEC website <https://www.enec.gov.ae/reporting-system/>.

Yours sincerely,

Mohamed Saleh AlJneibi
Procurement and Supply Chain Director
